Roman Ends templated for every project

Skimmer lids, lighting channels, and seating

Deck level copings to your specification or we can design what is required

We offer a fast and dynamic service

# EVERYTHING YOU NEED IN STONE

## BESPOKE MOLEANOS LIMESTONE POOL COPINGS

Our high quality Moleanos limestone contrasts beautifully here with Raj Hand Cut sandstone paving.

Pool copings have been made in two sizes to accommodate the deep arc of the Roman End and the straight edges.

Copings have a double sided pencil roll edge where they are exposed on both sides.

## WHITE MINT SANDBLASTED SANDSTONE POOL COPINGS

Bespoke made with double long edge pencil roll, plus corners with pencil rolled edges at the back on two sides.

A photograph of a swimming pool area. In the foreground, a rectangular pool with blue mosaic tiles is visible. The pool is surrounded by a light-colored stone patio. To the left, there are two lounge chairs with white cushions under a large white umbrella. In the background, there is a wooden gazebo with a blue shingled roof and a hanging wicker chair. The entire scene is set in a lush green garden.

## YELLOW MINT HONED SANDSTONE POOL COPINGS

Pool copings and terracing in matching material. Copings have been given a pencil roll top and bottom for a contemporary look.

To ensure a professional finish, always select our matching paving when ordering pool copings. This will ensure colour and quality matching on the project. Great deals always available.

## 30MM CALIBRATED
